

“

*Minimum Downtimes,
Cutdown on costs to
maintain multiple
vendors and
Substantial Savings
is achieved by
choosing a Single
Source locally
available supplier for
Manufacturing
Engineering needs.*

***SOLUTIONS TO
YOUR PROBLEMS***

**ARE CUSTOMERS
Handling Multiple Vendors?
Is all this multiplying
Customer's costs ??**

**DSH Technologies has
Exclusive Distribution & Sales
for products and solutions
from Leading OEMs for
Manufacturing Industry's
Mechanical, Electrical and
Electronics Engineering
requirements. We help save
cost by providing wide range
of products and solutions
under one roof.**

ARE Customers aware of

**Newer Products and features ?
Application know how ??**

**DSH Technologies in close
proximity and in regular
communication with customers,
share knowledge about
new products and features.**

**DSH Technologies works from
concept to implementation of
TECHNOCOMMERCIALY
most optimum solutions
and products**

**Prolonged procurement
phase...?
Downtime losses..??.
Unavailability of spares
and Services..???**

1

**DSH sources Products
from leading OEM's
to make them locally
available with Minimum
Lead time**

**Ready stock availability
and minimum deliveries of
engineering products to
make sure customers
achieve their manufacturing
goals with minimum downtime**

2

3

**Services available locally
and repairs for asset
optimisation**

Technologies

Distribution and Sales...Holistically!

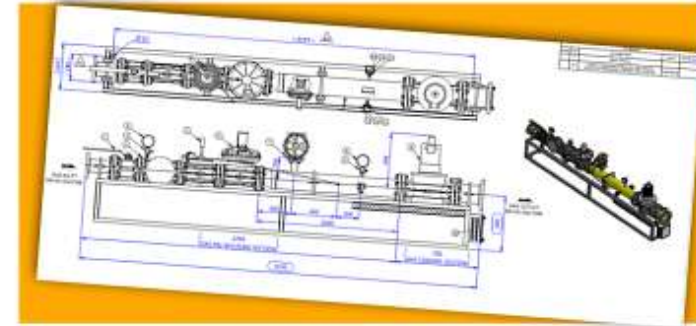

DSH Technologies Pvt. Ltd. was established in the year 2018 as exclusive distributor for Innovative Automation Pvt.Ltd., Pune for MADAS Fuel Regulation, Gas leak Detection, Gas Metering, Burner Controls and Combustion control products. It is also an Exclusive Distributor for GLEC Brand Electrical power quality products from Gogate Electrosystems Pvt. Ltd., Nasik. and OELUX brand of Industrial LED Luminaries.

JSW, Mahindra Sanyo, D Decor, Viraj Steels, Everest Kanto Cylinder, Technotherma Furnaces and Swastik Furnaces are to name a few steemed customers of DSH Technologies.

Implemented projects of DSH

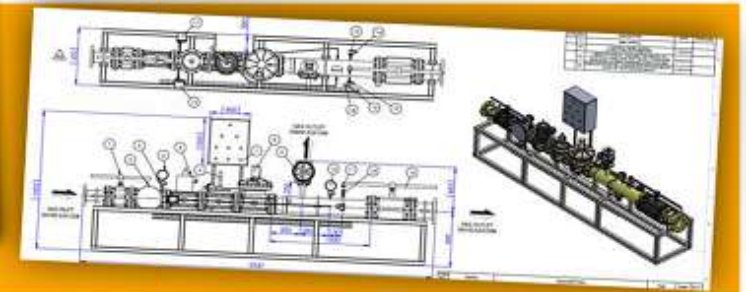

1

**1600 Nm³/Hr Natural Gas Regulation Skid for
AMSG Egypt , Technotherma Furnaces Mumbai**

**1000 Nm³/hr Natural Gas DN 100 X DN 150 Gas train
skid for Mahindra Sanyo Special Steels Limited**

DSH'S OFFERING

DSH *technologies*

*Fuel Gas Regulation,
Process regulation,
Instrumentation,
Combustion
controls
and safety*

*Electrical power
quality, Cables
and accessories,
Energy
Management and
SCADA, LED
luminaries*

Fuel Gas Regulation , Process regulation, Instrumentation , Combustion controls and safety

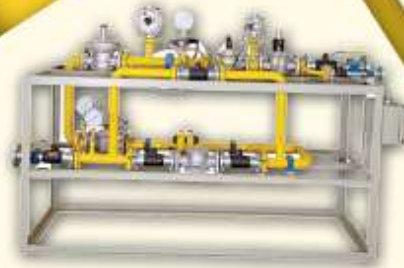

Manufacturers focusing on addressing challenges of meeting production targets also need to focus on monitoring and implementing efficient and safe combustion systems which can save upto 30% fuel losses, eliminate hazards and also ensure safety from hazard to assets and personnel.

With solutions and products from DSH Technologies, customers can Monitor, Regulate and Control Combustion Process implementing safety in line with internation standards.

DSH Technologies solutions include:

- 1 Gas Metering ,Regulation and Safety***
- 2 Gas Leak Detection and Safety***
- 3 Combustion Controls, Safety,
Monitoring and Analysis***

Gas Trains ,Metering
and Regulation Skid

Electrical power quality, Cables and accessories, Energy Management and SCADA, LED luminaries

With core focus on everyday operations and production targets, the damage caused to expensive electrical assets and machines is generally ignored. This causes downtimes and data loss due to poor power quality and power failures. Additionally using LED luminaries can save as much as 40% on the power bills.

DSH Technologies provides you with solutions with range of products which include:

- 1 Servo and Static Voltage stabilisers***
- 2 Industrial Uninterrupted Power Supplies***
- 3 APFC Panels and Harmonic Solutions, Cables, LED Luminaries and Allied Electrical Products***

OUR CUSTOMER SPEAK

Our customer speak

Leading Furnace OEM due to Faster deliveries and better services switched to DSH Technologies

Leading Steel Unit Selected DSH Technologies for Fuel Gas Regulation Systems based on its Expertise, Engineering Practices and Faster Deliveries

Leading Textile Manufacturer achieved upto 40 % Energy Saving by replacing conventional Light with LED luminaries
